WILLACE H. COULTER SCHOOL OF
ENGINEERING & APPLIED SCIENCES

Dear Benjamin,

Congratulations on your acceptance to Clarkson University! As chair of **Mechanical & Aerospace Engineering**, I'm excited to welcome you to our academic community and the hands-on, close-knit learning environment that makes Clarkson truly special.

Your education at Clarkson will be highly personalized, hands-on and intentionally designed around you — your goals, your passions and your future. From day one, you'll work directly with faculty, engage in meaningful projects and have the flexibility to shape a path that fits who you are and where you want to go. **We're committed to helping you grow**—as a student and a future leader in your field.

As a student in our department, you'll have access to wind tunnels, propulsion labs and student project teams like Formula SAE and Design-Build-Fly — where you'll gain real-world experience to set you apart before you even graduate. These unique resources and experiences help Clarkson rank among the **nation's top universities for return on investment**... and with our **97% job placement rate**, you can feel confident knowing we will set you up for success.

We know choosing a college is a big decision. That's why I hope you'll join us on campus for one of our **Accepted Student Days**, happening **March 29 and April 5**. During your visit, you'll meet faculty and future classmates, explore the **Mechanical & Aerospace Engineering** facilities and labs in more depth, and experience the welcoming, supportive community that Clarkson is known for. I'll be there and would love the chance to talk with you one-on-one about your interests and goals.

Reserve your spot at Accepted Students Day

We hope you leave that day feeling energized and ready to say yes to Clarkson! We're ready to welcome you—and to start shaping your future together.

With warmest congratulations,

Marcias Martinez
